

Welcome to **LifeChanger**. Magic is just one person's skillful use of techniques and principles with which others are unfamiliar. Did you know that there are "Universal Laws" with which most people are unfamiliar and proven successful strategies for using these laws to achieve a life you would love. I'm Dr Deborah Lockwood and I'd like to share with you some key strategies that have helped me create the life of my dreams and that can help you create yours too.

Have you ever been told that what you want in your life is impossible? When I grew up, although there were many opportunities for women, it was still largely a man's world. Often, caring people who "didn't want to see me get hurt or disappointed" told me that what I wanted was "just not going to happen".

I was told that: no-one gets into Oxford or Cambridge University from this school; Women never make it in cardiology; You can't have a successful professional career and a family; but all these things did happen for me! And I'm here to tell you that you too can have anything you want, if you join me and use the principles taught in the "LifeChanger program".

This program is designed to help you achieve a clear picture of the life you would love and implement strategies that will help you achieve it.

You will learn how to enlist the help of your sub-conscious mind to:

develop a burning desire for what you would really love; picture your desires clearly and actually believe you can have them; get rid of the limiting beliefs that are stopping you from progressing; eliminate procrastination and other self-sabotaging behavior; and get yourself to take the actions required to achieve your meaningful goals, even if those actions are outside of your usual comfort zone.

Successful people don't have more hours in the day than everyone else. BUT: They approach life differently; they think differently; they believe different things, they focus on solutions rather than problems; they develop more productive habits and they persist with the things that work for long enough to see different results.

I would love the opportunity to teach you in depth how to use these principles, in the "LifeChanger program" that we have created and that you can join by clicking on the "sign up" button next to this video.

The techniques taught in the **LifeChanger** program have been proven to work in the lives of many extremely successful people and can be successfully used by anyone and everyone if practiced properly.

However, knowledge alone is not enough. Looking back, I see that I missed out on a lot of additional opportunities and successes despite knowing all about success principles, because I didn't consistently use the techniques. For real transformation to occur, the principles need to be integrated into your life and practiced constantly.

So, in addition to creating the **LifeChanger** program to teach you the principles of transformation, my team and I have spent the last 3 years developing the amazing **LifeChanger** app. This app contains all the tools I wish had been available to me earlier, to truly integrate success strategies into day-to-day practice. During the **LifeChanger** program you will learn how to use this app to do such things as: start each day feeling inspired; organize your time keeping your goals in mind; develop positive habits; increase productivity; create more opportunities, more energy, better health and improved relationships; find more time to enjoy with your family; and consistently grow into the extraordinary being you are destined to become.

I have been studying self-development for more than 40 years, paying tens of thousands of dollars to train with some of the worlds' top transformational leaders. Let me teach you, in far less time and for far less money, the best of what I've learned from these masters and in my truly amazing and very full life.
